

NATIONAL BATTLEFIELDS COMMISSION

PUBLIC GOODS AND SERVICES CONTRACTS OF A VALUE EXCEEDING \$10,000

The National Battlefields Commission has agreed to follow the new guidelines regarding the contracts of the 2004 budget.

In the 2004 budget tabled on March 23, the government announced that federal institutions would have to “disclose to the public all their contracts totalling over \$10,000, except in very rare cases involving national security”. The purpose of this initiative is to promote the transparency of public contracts and to improve public access to pertinent information.
