

The National Battlefields Commission  
Quarterly Financial Report  
For the quarter ended September 30, 2015

**Statement outlining results, risks and significant changes in operations, personnel and programs**

**Introduction**

The National Battlefields Commission Mandate (the Commission)

The Commission was established in 1908 under the *Act respecting the National Battlefields in Quebec*. The Commission is a departmental corporation named in Schedule II of the *Financial Administration Act*.

The Commission's mandate is to ensure that all the cultural, recreational and natural resources of the Battlefields Park are developed in the best interest of Canadians and that the image of the Government of Canada is strengthened without compromising the historic character of the site. To achieve that goal, the Commission will acquire, preserve and develop the great historic battlefields in Quebec. In addition to Internal Services, the Commission has two program activities: « Conservation and Development » and « Public Education and Services ».

Further information on the mandate, roles, responsibilities and programs of the Commission can be found in the National Battlefields Commission's *2015-2016 Main Estimates*, available on the following website: <http://www.tbs-sct.gc.ca/ems-sgd/me-bpd/20152016/me-bpd-eng.pdf> page 194.

This quarterly financial report:

- should be read in conjunction with the *2015-2016 Main Estimates*;
- has been prepared by management of the Commission as required by section 65.1 of the *Financial Administration Act* and in the form and manner prescribed by the Treasury Board;
- has not been subject to an external audit or review.

Basis of Presentation

This quarterly report has been prepared by management using an expenditure basis of accounting. The accompanying Statement of Authorities includes the Commission's spending authorities granted by Parliament and used by the Commission consistent with the Main Estimates for the 2015-2016 fiscal year. This quarterly report has been prepared using a special purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

The authority of Parliament is required before moneys can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes.

When Parliament is dissolved for the purposes of a general election, section 30 of the *Financial Administration Act* authorizes the Governor General, under certain conditions, to issue a special warrant authorizing the Government to withdraw funds from the Consolidated Revenue Fund. A special warrant is deemed to be an appropriation for the fiscal year in which it is issued.

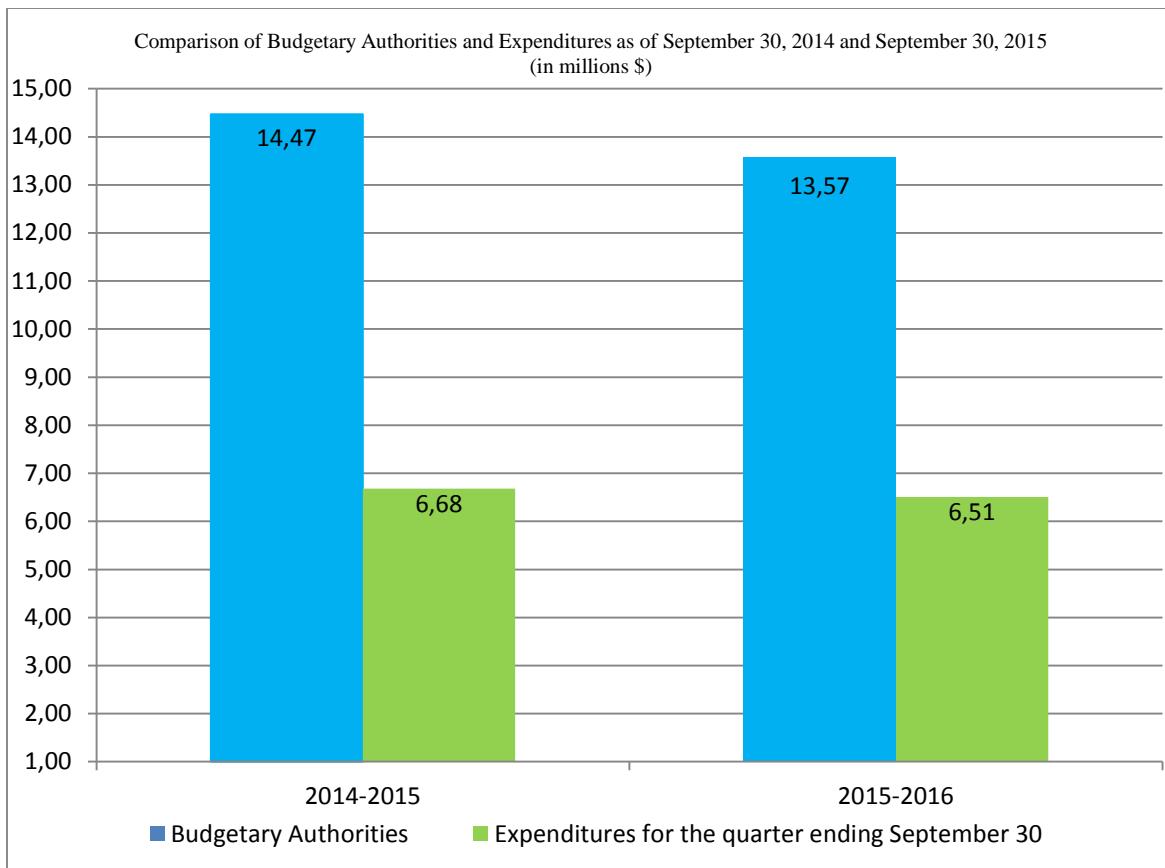

The Commission uses the full accrual method of accounting to prepare and present its annual departmental financial statements that are part of the departmental performance reporting process. However, the spending authorities voted by Parliament remain on an expenditure basis.

**Highlights of fiscal quarter and fiscal year to date (YTD) results**

This section highlights the significant items that contributed to the net decrease in resources available for the year and the net decrease in actual expenditures for the quarter ended September 30, 2015.

**Graph 1 :**

Graph 1 outlines the budgetary authorities which represent the resources available for use for the year as of September 30.

Authorities' analysis

As at September 30, 2015, total authorities available for the year were down by \$0.90 million from the same quarter of the prior year, from \$14.47 million to \$13.57 million. This decrease was due to a decrease in the operating budget of \$0.91 million and an increase of the employee benefit plan (EBP) of \$0.01 million.

The variation in the operating budget of \$0.91 million comes from the combination of a net budget decrease in the amount of \$3,400,000 in 2014-2015 for the redevelopment of Gilmour Hill to permit its year-round opening and the creation of a multi-purpose interpretive trail in Battlefields Park (T.B. 836990) in addition to an accepted reprofile of \$2,227,733 and an increase in the operating budget carry forward of \$276,159 (\$597 032 \$ - 320 873 \$). Furthermore, there was a decrease of \$10,010 from the combination of a \$10,000 cut following the overall Web renewal initiative and a \$10 cut (interest charges).

Budgetary expenditures analysis

Compared to the previous year, total budgetary expenditures recorded at the end of the quarter, ending September 30, 2015 decreased from \$6.68 million to \$6.51 million as per the Table of departmental budgetary expenditures by Standard Object. This \$0.17 million decrease represents a drop of 3% and is the result of favourable and unfavourable variances of the last two quarters.

The most significant decrease was in *Acquisition of land, buildings and works* (\$156,214) due to lower expenses in the first two quarters for the redevelopment of Gilmour Hill and the creation of the multi-purpose interpretive trail.

Furthermore, there was a decrease in the standard object of *Other subsidies and payments* due to a one-time transition payment (\$114,167) for implementing salary payment in arrears by the Government of Canada in 2014-2015.

The most significant increase is in the standard object *Purchased repair and maintenance* (\$70,558) due to various works such as the paving of a trail at the Great Plain and the repair work behind the Laurier parking area.

**Risks and Uncertainties**

This Departmental Quarterly Financial Report reflects the results of the current fiscal period in relation to the Main Estimates for which full supply was released on June 19, 2015.

The Commission may not achieve its objective of \$1.85 million as statutory funding if for example, there is a drop in tourist traffic in 2015-2016 in comparison with 2014-2015. Most of the revenues come from parking lot fees and activities on the park.

In order to manage this risk, the Commission will perform an ongoing assessment of its expenses with relation to collected revenue and take appropriate measures in a timely manner.

**Significant changes in relation to operations, personnel and programs**

The 2015-2016 budget proposed by management and approved by the Board of Directors on March 11<sup>th</sup>, 2015 has the same budgetary restrictions as those adopted in 2014-2015: the Commission did not hire students for the summer in certain sectors and it will maintain the reduced work hours for an employee during the months of November to January. In addition, the number of shows at the Edwin-Bélanger Bandstand will remain reduced (28 shows instead of 32, one week less). This budget reflects wage and operating budget freezes and the willingness of the Commission to maintain quality services to park users. With an already reduced budget of \$800,000 (rounded) as part of the government's initiatives to reduce the deficit, the Commission anticipates a budget freeze. An analysis of the various operating budget items in such a context of fiscal austerity shows very little leeway. Special non-recurring projects will be limited.

However, the Commission does not intend to reduce its services to the public. Be that as it may, the Commission is maintaining its objectives with regard to conserving and enhancing its territory. Urgent priority work will go on and an effort will be made to minimize safety risks to users and keep facilities in compliance.
